

Accessing Git Branches Popup Menu

The **Git Branches** popup menu contains all the commands that are required to work with Git branches, and can be invoked in a number of ways.

To open the **Git Branches** popup menu, do one of the following

- On the main **VCS** menu, choose **Git | Branches**.
- Open file in the editor, and on the context menu of the editor, choose **Git | Branches**.
- In the **VCS operations** popup menu, choose **Branches**.
- Click the Git widget in the Status bar:
