

## Add Archetype Dialog

---

This dialog box is invoked by the **Add Archetype** button in the [Maven page](#) of the **New Project** wizard. It helps populate the list of archetypes with the ones found by the Maven coordinates and downloaded from the Maven repositories.

Item	Description
GroupId	Specify <code>GroupId</code> of the archetype to be sought for in a Maven repository.
ArtifactId	Specify <code>ArtifactId</code> of the archetype to be sought for in a Maven repository.
Version	Specify <code>Version</code> of the archetype to be sought for in a Maven repository.
Repository (optional)	Optionally, enter the URL of the desired repository.
