

Analyzing GWT Compiled Output

IntelliJ IDEA helps you understand the compiled output of your GWT application by providing [GWT Compile Reports](#). Generated reports are displayed in the browser.

To view the GWT compile output report

1. On the main menu, choose **Tools | Generate GWT Compile Report**.
2. In the [Generate GWT Compile Report](#) dialog box that opens, choose the module to view the output of from the **GWT Module** drop-down list.
3. Specify whether you want to view an existing report or a new one. Do one of the following:
 - To have a new report created, click the **Generate** button.
 - To view the previous generated report, click the **View Report** button.

IntelliJ IDEA informs you how long ago a report was generated last.
