

# Bitbucket

---

File | Settings | IDE Settings | Bitbucket

The Bitbucket plugin is a [repository plugin](#) therefore this page is available only if the Bitbucket plugin is installed and enabled.

Use this page to set a connection to your Bitbucket repository.

Item	Description
Login	Use this field to enter your Bitbucket service login to connect to your Bitbucket account.
Password	Use this field to enter your Bitbucket service password.
Test	Press this button to test the connection to your Bitbucket account.
Add SSH key	Press this button to add an SSH key for accessing your Bitbucket account. Using both the password and SSH key will make your connection more secure.
