

Build Configuration Page for a Flash Module

File | Project Structure | Modules

The **Build Configuration** page opens in the right-hand part of the [Project Structure dialog](#) when you select a build configuration of a Flash module in the [element selector pane](#).

Use this page to edit the settings for the selected build configuration.

- [General Tab](#)
- [Dependencies Tab](#)
- [Compiler Options Tab](#)
- [AIR Package Tab](#)
- [Android Tab](#)
- [iOS Tab](#)
