

Completing Path

[dialog used for that purpose](#)Project Structure

To automatically complete a path

1. Open the [Select Path dialog](#) by doing one of the following:
 - Click the **Browse** button .
 - Click **New** on the **Project SDK** page of the **Project Structure** dialog box.
2. Make sure that the **Path** field is visible. If the field is hidden, click the **Show path** link.
3. Start typing a path. IntelliJ IDEA suggests a drop-down list where you can quickly find the needed directory. As you type, the suggestion list shrinks to show the matching paths only. You can also press **Ctrl+Space** to show the suggestion list.
4. Select completion from the list.
