

Creating Exception Breakpoints

To create an exception breakpoint

1. On the main menu, choose **Run | View Breakpoints**, or press **Ctrl+Shift+F8**.
2. In the **Breakpoints** dialog box that opens, click **+**.
3. Select **Exception Breakpoints** from the drop-down list.

4. In the **Select Exception Class** dialog box, specify the desired exception class from the library, or from the project, and click **OK**.
