

Dart Settings Dialog

The dialog box opens when you click the **Dart Settings** button  on the toolbar. Use the dialog box to configure the *Dart SDK*. The SDK is not bundled with IntelliJ IDEA and has to be downloaded manually. For information on the available versions of *Dart SDK* and for installation instructions, please refer to <http://www.dartlang.org/downloads.html> .

Item	Description
Choose Dart SDK Home Path	<p>In this text box, specify the location of the downloaded <i>Dart SDK</i>. Type the path manually or click the Browse button  and choose the path in the dialog box that opens.</p> <p>If IntelliJ IDEA recognizes the Dart SDK correctly, it displays the revision number of the detected SDK.</p>
Dart SDK enabled	<ul style="list-style-type: none">■ When this check box is selected, the SDK is active.■ Clear the check box to temporarily deactivate the SDK.
Edit usage scope	<p>Click this link to change the default scope of the SDK in the Usage Scope dialog box that opens. By default the SDK is available at the IntelliJ IDEA level.</p>
