

Debugger. Groovy

Use this tab to configure Groovy specific debug options.

Item	Description
Do not step into specific Groovy classes	Check this option if you don't want to step into specific Groovy classes while debugging.
Enable hot-swap agent for Groovy code	If this check box is selected, then a special agent will be added to the debugged process in order to enable hot-swap for Groovy code. If you don't want hot-swap, or this agent is getting in the way, clear this check box. <div data-bbox="504 584 1396 712" style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;">Note that enabling hot-swap agent may cause serialization problems in the debugged applications.</div>
