

Editor. Code Folding

File | Settings | IDE Settings | Editor - Code Folding

Item	Description
Show code folding outline	Select this check box if you want the code folding toggles (⌵, ⌶ and ⊕) to be shown in the editor. Clear the check box to hide the toggles. For more information, see Code Folding .
Collapse by default	Use the check boxes in this area to specify which code blocks should be folded by default, that is, when a file is first opened in the editor. For example, file headers, imports, one-line comments etc. are collapsed by default.
