

EJB Editor

EJB Tool Window | context menu of a bean | Jump to Source

The bean editor is accessible from the [EJB](#) tool window only. The editor consists of two tabs: **General** tab and **Assembly Descriptor** tab.

The **General** tab consists of a common part, and a bean specific part. The **Assembly Descriptor** tab is similar for all bean types.

In this part:

- [EJB Editor - General Tab - Entity Bean](#)
- [EJB Editor - General Tab - Message Bean](#)
- [EJB Editor - General Tab - Session Bean](#)
- [EJB Editor - Assembly Descriptor](#)
- [Assembly Descriptor Dialogs](#)
- [EJB Editor General Tab - Common](#)
