

# Enabling Support of Additional Live Templates

---

Support of additional templates includes more than 200 different HTML, CSS, and XSL live templates. All of them are listed under the **Zen Coding** nodes on the [Live Templates](#) page of the **Settings** dialog box.

## To enable support of additional HTML, css, and xsl live templates

1. [Open the IDE Settings](#) and click **Live Templates**.
2. In the [Live Templates](#) page, that opens, select the check boxes next to the relevant template groups. The available groups are:
  - **Zen CSS**
  - **Zen HTML**
  - **Zen XSL**
