

Generating Unmarshallers

With IntelliJ IDEA, you can have unmarshal code stubs generated using [JAXB](#) or [XMLBeans](#) binding tools.

To generate unmarshal code using jaxb

1. Position the cursor where you need the unmarshaller to be generated.
2. Do one of the following:
 - On the main menu, choose **Tools | JAXB | JAXB Client Code | Generate JAXB unmarshal code (Java object from XML)**.
 - On the context menu, choose **WebServices | JAXB Client Code | Generate JAXB unmarshal code (Java object from XML)**.

To generate unmarshal code using xmlbeans

1. Position the cursor where you need the unmarshaller to be generated.
2. Do one of the following:
 - On the main menu, choose **Tools | XMLBeans | XMLBeans Client Code | Generate XMLBeans unmarshal code (Java object from XML)**.
 - On the context menu, choose **WebServices | XMLBeans Client Code | Generate XMLBeans unmarshal code (Java object from XML)**.
