

## Import from Eclipse. Page 2

---

Use this page to browse the projects detected in the selected Eclipse workspace and choose the ones to be imported to the IntelliJ IDEA project.

Item	Description
Select Eclipse projects to import	In the list of projects detected in the specified root, select the ones to be imported. Each Eclipse project will be converted into an IntelliJ IDEA module.
Open Project Structure after import	Select this check box to have the <a href="#">Project Structure</a> dialog box opened when the import is completed.
