

## IntelliJ IDEA vs Eclipse Terminology

---

Eclipse and IntelliJ IDEA use different names for similar entities. It is important to understand the difference between the terminologies of both IDEs. In this section you can find a table of mappings between the Eclipse and IntelliJ IDEA terms.

Eclipse	IntelliJ IDEA
A number of projects, a workspace	Project
Project	Module
Project-specific JRE	Module SDK
User library	Global library
Classpath variable	Path variable
Project dependency	Module dependency
Library	Module library
