

Java EE: App Tool Window

View | Tool Windows | JavaEE:App

This window is available only for modules with a JavaEE Application [facet](#).

The **JavaEE: App** tool window provides a tree view of your JavaEE Application facet resources. Below each module node, the corresponding `application.xml` deployment descriptor is shown.

Context menu

Item	Description
Jump to Source (F4)	Select this option: <ul style="list-style-type: none">■ To open the selected file in the editor. (To open a file in the editor, you can, alternatively, double-click the file.)■ To jump to the selected folder in the Project tool window.
