

Login to IntelliJ Configuration Server Dialog

- [Prerequisites](#)
- [Overview](#)
- [Controls](#)

Prerequisites

The plugin [IntelliJ Configuration Server Plugin](#) is NOT bundled with IntelliJ IDEA. You have to [download and install it](#).

Overview

IntelliJ Configuration Server is intended for storing common IDE settings to be used by a team. This ensures that all the team members have unified IDE look and feel.

The dialog box opens:

- When you start up the IntelliJ IDEA for the first time after installing the plugin. In this case, the dialog box contains an additional area [On next startup](#).
- When you click the **IntelliJ Configuration Server Status** button  on the Status bar during a session and then click the **Login** button in the dialog box that opens.

Use this dialog box to log in to the IntelliJ Configuration Server and specify the Proxy settings to access the Server, if necessary.

Controls

Item	Description
Login	In this text box, type your JetBrains Account login.
Password	In this text box, type your JetBrains account password.
Create or manage your JetBrains account	Click this link to create a JetBrains Account or edit your account if you already have it.
Use HTTP Proxy	Select this check box if you want to access the IntelliJ Configuration Server through a Proxy server.
Host name	In this text box, type the Proxy host name.
Port Number	In this text box, type the Proxy port number.
Proxy Authentication	Select this check box if you want to use a login and password to access the HTTP Proxy server.
Login	In this text box, type your Proxy login.
Password	In this text box, type your Proxy password.
Remember password	If this check box is selected, IntelliJ IDEA remembers your Proxy password and in the future fills in the Password text box automatically when you log in.

On next startup area

The area is displayed in the dialog box only when IntelliJ IDEA starts up for the first time. Use this area to configure how you want to log in to IntelliJ Configuration Server in the future.

The following controls are available:

Item	Description
Show login dialog	Select this option to have the Login to IntelliJ Configuration Server dialog box displayed during the next IntelliJ IDEA startup.
Login silently	Select this option to log in to the Server without asking for login and password.
Do not login	Select this option if you do not plan to log in to the IntelliJ Configuration Server. <div data-bbox="341 613 1396 712" style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;">You can reconfigure this behavior at any time during the session.</div>
Login	Click this button to log in to the IntelliJ Configuration Server.
Skip	Click this button to start an IntelliJ IDEA session without logging to the IntelliJ Configuration Server. <div data-bbox="341 913 1396 1012" style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;">You can log in to the Server at any time during the session.</div>
