

Maven. Runner

Use this page to configure settings for the external Maven that will be used to run goals.

Item	Description
Run in background	Check this option to perform run as a background task.
VM Options	Specify VM options that will be passed to the selected JRE. When specifying the options, follow these rules: <ul style="list-style-type: none">■ Use spaces to separate individual options, for example, <code>-client -ea -Xmx1024m</code>.■ If an option includes spaces, enclose the spaces or the argument that contains the spaces in double quotes, for example, <code>some " arg</code> or <code>"some arg"</code>.■ If an option includes double quotes (e.g. as part of the argument), escape the double quotes by means of the backslashes, for example, <code>-Dmy.prop=\"quoted_value\"</code>.
JRE	Select the JRE that will be used to run the Maven goals.
Properties	Specify the properties and their values to be passed to Maven.
 (Alt+Insert)	Use this icon or shortcut to define a new property as a name - value pair.
 (Enter)	Use this icon or shortcut to change the selected property.
 (Alt+Delete)	Use this icon or shortcut to remove the selected properties from the list.
Skip tests	Check this option to skip performing unit tests. This corresponds to the Maven option <code>-Dmaven.test.skip=true</code>
