

# New Changelist Dialog

---

Changes tool window - [+](#)

Alt+Insert

---

Use this dialog box to create a new changelist.

Item	Description
Name	Type the name of the new changelist.
Comment	Type optional comment. When the new changelist will be submitted to the repository, this comment will appear in the <b>Comment</b> text area of the <a href="#">Commit Changes</a> dialog box.
Make this changelist active	If this check box is selected, the new changelist will automatically get the <i>active</i> status. See <a href="#">Changelist</a> .
Track context	If this check box is selected, the current context will be preserved on changelist deactivation. On changelist becoming active, the context will be restored.
