Print

File | Print

Use this dialog box to specify the text to print and configure the print layout.

In this section:

- Scope
- Settings
- Advanced
- Header and Footer

Scope

Item	Description
File \<name\>	Select this option to print the file, which is currently selected in the **Project view** or opened in the editor.
Selected text	Select this option to print the text selected in the editor.
All files in the directory	Select this option to print all files in the current directory.
Include subdirectories	Select this check box to have the files in the subdirectories of the current directory printed as well.

Settings

In this tab, specify the basic print layout settings.

Item	Description
Paper size	From this drop-down list, select the desired paper size.
Font	From the drop-down lists in this area, select the desired font style and size.
Show line numbers	Select this check box to have line numbers printed.
Draw border	Select this check box to have a border printed.
Orientation	In this area, specify the paper orientation. The available options are: ■ Landscape ■ Portrait
Style	In this area, specify the style of the printout by selecting the relevant check boxes. The available options are: ■ Color printing ■ Syntax printing ■ Print as graphics

Advanced

Item	Description
Wrapping	In this area, configure text wrapping. The available options are: ■ No wrap ■ Wrap at word breaks
Margins	Use the text boxes in this area to specify the margins in inches.

Header and footer

In this tab, specify the contents and placement of the header and footer.

Item	Description
Text line	In this text box, specify the contents of the header or footer. If necessary, combine plain text with variables. By default, IntelliJ IDEA suggests to print the name of the file in the header and the current page number in the footer.
Placement	Use this drop-down list to specify whether the above line will be printed in the header or in the footer.
Alignment	From this drop-down list, select the desired alignment.
Font	In this area, specify the desired font style and size to print the header and footer text.
