

## Running Gradle Tasks in the JetGradle Tool Window

---

Using [JetGradle tool window](#), you can execute different Gradle tasks.

### To execute Gradle tasks in JetGradle Tool Window

- In the [JetGradle tool window](#), click **Tasks** tab.
- In the **Tasks** tab, in the **All tasks** area, select the task that you want to execute.
- Right-click the selected task and from the context menu, select a type of the command that you want to perform.
