

## Sources Page

---

Specify whether you want to create a source directory for your module.

Item	Description
Create source directory	<p>Select this option to create a directory for your source code files.</p> <p>Specify the path to this directory relative to the <a href="#">module content root</a> (i.e. the module root directory). You can click  (Shift+Enter) and select the necessary directory in the dialog that opens. (You can create a new directory in this dialog.)</p>
Do not create source directory	<p>Select this option if you don't want to create a source directory. (You will be able to create such a directory later.)</p>
