

# StarTeam

[File](#) | [Settings](#) | [Project Settings](#) | [Version Control](#) | [VCSs](#) | [StarTeam for Windows and Linux](#)

[IntelliJ IDEA](#) | [Preferences](#) | [Project Settings](#) | [Version Control](#) | [VCSs](#) | [StarTeam for OS X](#)

Use this page to specify the version control settings to be applied to those directories of your project that are under StarTeam control

Item	Description
Server	In this text box, specify the URL address of the StarTeam server to be used.
Port	In this text box, specify the TCP/IP endpoint defined for the StarTeam server.
User	In this text box, specify your StarTeam account user name for access from IntelliJ IDEA.
Password	In this text box, specify your StarTeam account password for access from IntelliJ IDEA.
Project	In this text box, specify the StarTeam project location. Use the  button, if necessary.
View	In this text box, specify the StarTeam project view you are entitled to work with. Use the  button, if necessary.
Working Path	In this text box, specify the path to your working copy of the files under StarTeam control.
Test connection	Click this button to verify that connection to the server has been established properly.
Lock Files on Checkout	When this check box is selected, a checked out file is automatically locked for editing by anyone except the person who checked it out.
Unlock Files on Checkin	When this check box is selected, a file is automatically unlocked after it is checked in.
