

# Stash Dialog

---

## VCS | Git | Stash Changes

---

Use this dialog box to specify parameters for saving local modifications in a new stash.

Item	Description
Git Root	From this drop-down list, select the path to the local repository in which you want to stash modifications.
Current Branch	This read-only field shows the name of the branch which is currently checked out in the selected local repository.
Message	In this text box, provide a description of the new stash. This description will be displayed in the <a href="#">Unstash Changes</a> dialog box to help you select the required stash.
Keep Index	Select this check box to have IntelliJ IDEA bring the changes staged in the index to your working tree for examination and testing.
Create Stash	Click this button to have the specified local modification saved in a new stash.
