

# Tool Settings

---

File | Settings | Command Line Tool Support

The dialog box opens when you click the **Add** button and choose **Custom Tool** in the **Choose Tool to Add** dialog box.

Use the dialog box to create your own command line tool.

Item	Description
Tool Name	In this text box, specify the name of the new tool.
Tool path	In this text box, specify the location of the new tool.
Alias	In this text box, type the character string to use in command calls instead of the full path to the tool.
Description	In this text box, provide a brief explanation of the tool functionality.
