

## Viewing Contents of a Folded Block

---

To view the contents of a folded block

- Hover the mouse cursor over the fold marker, and see the contents in a pop-up window.

```
139  + public void setLocale(String locale) (. . .)
139      public void setLocale(String locale) {
140          this.locale = XMLDocumentUtils.getLocaleFromString(locale);
141          return;
142      }
147  }
```
