

Zend Framework 2 Tool

File | Settings | Command Line Tool Support

The dialog box opens when you click the **Add** button and choose **Zend Framework 2 Tool** in the **Choose Tool to Add** dialog box.

Use the dialog box to configure [Zend Framework](#) support in IntelliJ IDEA.

Item	Description
Path to zf tool	In this text box, specify the location of the <Zend-Framework-home>/zf.php or <Zend-Framework-home>/zf.php file. Type the path manually or click the Browse button  and choose the desired location in the dialog that opens . IntelliJ IDEA parses the contents of the specified file for Zend Framework commands.
