Version 1.2, effective as of March 23, 2023

IMPORTANT! READ CAREFULLY: THIS IS A LEGAL AGREEMENT. BY DOWNLOADING, INSTALLING, COPYING, SAVING ON YOUR COMPUTER, OR OTHERWISE USING JETBRAINS SOFTWARE, SERVICES OR PRODUCTS, LICENSEE IS BECOMING A PARTY TO THIS AGREEMENT AND LICENSEE IS CONSENTING TO BE BOUND BY ALL THE TERMS AND CONDITIONS SET FORTH BELOW.

NOTE: This License Agreement forms a legally binding contract between you and JetBrains in relation to your use of the SDK. You can install and use the SDK only in case you are already legally using JetBrains Rider Software on your computer.

## 1. DEFINITIONS

“JetBrains” or “We” means JetBrains s.r.o., having its principal place of business at Na hřebenech II 1718/8, Prague, 14000, Czech Republic, registered with Commercial Register kept by the Municipal Court of Prague, Section C, file 86211, ID.Nr.: 265 02 275.

“SDK” means the JetBrains Rider Software Development Kit and specifically including any associated JetBrains Rider software files, documentation, software code or other materials made available by JetBrains and any third-party software programs that are owned and licensed by parties other than JetBrains and that are either integrated with or made part of the SDK (collectively, “Third-Party Software”).

## 2. ACCEPTING THIS LICENSE AGREEMENT

2.1 In order to use the SDK, you must first agree to this License Agreement. You may not use the SDK if you do not accept this License Agreement.

2.2 You can accept this License Agreement by:

- (a) clicking to accept or agree to this License Agreement, where this option is made available to you; or
- (b) by actually using the SDK. In this case, you agree that use of the SDK constitutes acceptance of the Licensing Agreement from that point onwards.

2.3 You may not use the SDK and may not accept the Licensing Agreement if you are a person barred from receiving the SDK under the laws of the country in which you are resident or from which you use the SDK.

2.4 If you are agreeing to be bound by this License Agreement on behalf of your employer or other entity, you represent and warrant that you have full legal authority to bind your employer or such entity to this License Agreement. If you do not have the requisite authority, you may not accept the Licensing Agreement or use the SDK on behalf of your employer or other entity.

## 3. SDK LICENSE FROM JETBRAINS

3.1 Subject to the terms of this License Agreement, JetBrains grants you a limited, worldwide, royalty-free, non-transferable and non-exclusive license to use the SDK solely to design, develop and test plug-ins to JetBrains Rider Software.

3.2 You agree that JetBrains or third parties own all legal right, title and interest in and to the SDK, including any Intellectual Property Rights that subsist in the SDK. “Intellectual Property Rights” means any and all rights under patent law, copyright law, trade secret law, trademark law, and any and all other proprietary rights. JetBrains reserves all rights not expressly granted to you.

3.3 Except to the extent required by applicable third-party licenses, you may not copy (except for backup purposes), modify, adapt, redistribute, decompile, reverse-engineer, disassemble, or create derivative works of the SDK or any part of the SDK.

3.4 Use, reproduction and distribution of components of the SDK licensed under an open source software license are governed solely by the terms of that open source software license and not this License Agreement.

3.5 You agree that the form and nature of the SDK that JetBrains provides may change without prior notice to you, and that future versions of the SDK may be incompatible with applications developed on previous versions of the SDK.

3.6 Nothing in this License Agreement grants you a right to use any of JetBrains' trade names, trademarks, service marks, logos, domain names, or other distinctive brand features.

3.7 You agree that you will not remove, obscure, or alter any proprietary rights notices (including copyright and trademark notices) that may be affixed to or contained within the SDK.
