JetBrains AI Service Providers

Last update: December 12, 2024

JetBrains AI services use the following third-party language model service providers as AI subcontractors. Based on the JetBrains AI version that you use, your inputs and data will be shared with these listed AI subcontractors.

Service	Model Provider	Model Name(s)
JetBrains AI Pro	OpenAI, Google, Anthropic*	GPT-family, Gemini, Claude*
JetBrains AI Enterprise (powered by JetBrains AI)	OpenAI, Google, Anthropic*	GPT-family, Gemini, Claude*
JetBrains AI Enterprise (powered by OpenAI)	OpenAI	GPT-family
JetBrains AI Enterprise (powered by Google)	Google	Gemini
JetBrains AI Enterprise (powered by Anthropic)	Anthropic*	Claude*
Grazie Extension / Pro	OpenAI, Google	GPT-family, Gemini

Anthropic AI models can be connected to the services either through Amazon Bedrock service provided by AWS or directly by JetBrains.

We expect that JetBrains AI will start using Anthropic models in January, 2025 (not earlier than on January 12, 2025).
